LEFT BLANK.**

NUR 329 Section B

Short Answer Questions

Total Number of Marks for this section: 60

This section should be answered in the Answer Booklet provided.

Marks for each question are indicated.

Suggested time allocation for Section B: 80 minutes

1. Public health

- A. List the three (3) levels of Australian government that contribute to public health (3 marks)
- B. Provide one (1) example for each level of the Australian government about what they contribute to public health (6 marks)
- C. Provide one (1) example of a current public health action occurring in the Australian community (1 mark)

Total 10 marks

2. Health policy

- A. Outline four (4) reasons why we need to monitor the burden of disease in Australia (8 marks)
- B. The National Strategic Framework for Chronic Conditions (NSFCC) is one example of government strategy/policy action to address health issues in Australia. Identify another two (2) examples of current Australian health policy or strategies which address health issues in Australia (2 marks)

Total 10 marks

3. Health determinants

When we look at the determinants of health, there are many factors that can contribute to both health and disease of individuals and communities. For example, where someone lives can affect their health due to access to clean water.

- A. Outline two (2) examples of how someone's literacy and education levels can affect their overall health (4 marks)
- B. List four (4) behavioural/modifiable risk factors for chronic disease (4 marks)
- C. Define food literacy (2 marks)

Total 10 marks

4. Changing patterns of disease/ Aboriginal and Torres Strait Islander people's health

- A. In June 2007 the Australian government announced the Northern Territory Emergency Response also known as The Intervention. Describe three (3) examples how The Intervention impacted Aboriginal and Torres Strait Islander peoples living in the areas it was imposed (6 marks)
- B. Outline two (2) examples of how colonisation negatively impacted health for Aboriginal and Torres Strait Islander peoples (4 marks)

Total 10 marks

5. Epidemiology/ Communicable disease

- A. Outline of four (4) strategies the Centres for Disease Control (CDC) would implement if we had a large outbreak of dengue in Australia (4 marks)
- B. List three (3) examples of notifiable diseases in Australia (3 marks)
- C. List two (2) examples of diseases we no longer see in Australia due to successful vaccination programs (2 marks)
- D. Name the Australian organisation which leads the Department of Health's public health role for the Commonwealth; in particular in protection measures, and, preparation and response to health disasters (1 mark)

Total 10 marks

6. Global public health

- A. Outline four (4) examples of how globalisation has impacted health around the world (4 marks)
- B. Outline three (3) health considerations we need to be aware of for refugees who are entering Australian? (3 marks)
- C. Identify three (3) areas we might refer to when comparing the health profiles for different countries (3 marks)

Total 10 marks
